

From Pockets to Pathogens: Maximize Technology for Optimal Periodontal Therapy Success

Presented by:

Amber Auger, RDH, MPH

Has your hygiene team plateaued in their production? Turning treatment recommendations into completed treatment requires *inspired* clinicians who have the tools to increase patient compliance. If you and your elite team are ready to *increase production* and **WOW** your patients with the latest technologies, this course is for you!

Participants will:

- ✓ Review pathogens that cause periodontal disease and how these can affect systemic health. Review educational strategy to promote change for periodontal susceptible patients.
- ✓ Breakdown of new and innovative ways to improve the chairside experience for both the patient and the clinician; including voice recognition technologies, intraoral cameras, hand and power instrumentation
- ✓ Evaluate innovative homecare items that will optimize patient compliance
- ✓ Reignite their passion to provide elite comprehensive chairside care to their patients

Amber Auger, transformation coach extraordinaire, inspires others to find the key to their inner ignition switch!
